## Description

Stunning Mangusta 92 Two sunbathing areas are arranged forward and aft. In the latter, some sofas and a table create a real relaxation area, also suitable for lunch or evenings in the open air. From here, then, a sliding glass door leads to the living area, consisting of a large room illuminated by different windows with a decor based on a pleasant contrast between light wood and dark shades of leather and wengé flooring. The finishes are in oak, while walls and ceilings are covered with natural leather. A dining table faces a leather sofa served by a small table. The wheelhouse, continuing towards the bow, provides three comfortable and spacious seats. The lower deck houses the sleeping area, with three cabins and, in addition, an original relaxation room, which can be transformed into a fourth cabin or into an environment dedicated to the games of any children on board or could become the owner's office. On the other hand also this environment is flanked by a bathroom, defined as a service, but actually quite large. The owner's cabin is full-beam, furnished with a double bed, a corner vanity on one side and a sofa on the opposite side. A walk-in closet and a large bathroom. Continuing towards the bow we meet the relaxation room, which has already been mentioned, then there is the double guest cabin (to the two separate beds can be added a third), equipped with a personal bathroom. Further ahead is the VIP cabin and has a double bed, a sofa and a bathroom. At the stern, we find the crew area, which has at its disposal three beds divided into two cabins, near the large white and gray kitchen with all appliances. The aft garage can accommodate various water games such as jet skiing and equipment.
