Description

The Pirelli 42 is the first model in a new line of walkaround RIBs. It's equally suited to be a large-yacht tender, a beefychase boat or a stand-alone day cruiser, thanks to its bold design, its high-level performance and its sizable number of amenities. SACS TecnoRib produces the Pirelli 42 in design collaboration with the Swedish firm Mannerfelt Design Team. Mannerfelt also has a background in designing fast, luxurious automobiles, which is evident in the Pirelli 42's style. It has a chic, aggressive exterior. The raked windshield integrates into the RIB's hardtop, supported by twin sculpted pillars for a screaming-fast look. Side plexiglass windscreens protect the helm's occupants from the elements. The boat's beefy, 13-foot-6-inch beam makes it feel larger than 42 feet length overall and allows for 14 passengers on board.

Specs:

twin Mercury Verado 400 V 10 with only 50 hours
