Condition:	New	Crew Cabins:	1		
Class:	Catamaran	Guest Heads:	4		

Description

The **Mazarin 55** is a new-generation performance sailing catamaran that combines striking contemporary styling, exhilarating sailing performance, and exceptional onboard comfort. Designed for discerning private owners and luxury charter operators, the Mazarin 55 offers extensive customization options, advanced engineering, and premium craftsmanship.

Built with a lightweight, low-profile design and an optimized sail plan, the Mazarin 55 delivers impressive performance while maintaining excellent stability and effortless handling. The lowered boom and reduced center of gravity improve sailing efficiency, while the enlarged sail area, extended bowsprit, and larger gennaker maximize performance in a wide range of conditions.

The spacious flybridge has been redesigned with a larger entertaining area, lightweight GRP hardtop, and improved access to both electric and manual winches, creating a practical helm station with outstanding visibility and ease of operation.

The yacht is available with multiple propulsion options, including traditional shaft drives, sail drives, or an advanced hybrid propulsion system developed in partnership with E-Motion Italy. Solar power integration, lithium battery upgrades, twin generators, and high-capacity inverters provide exceptional energy autonomy for extended cruising.

With a choice of owner-focused or charter-oriented layouts, including configurations of up to six cabins, the Mazarin 55 can be tailored to suit individual cruising lifestyles or commercial charter operations. Galley-up and galley-down arrangements, together with a wide range of interior finishes and equipment options, allow every yacht to be built to the owner's exact specifications.

Standard Features

- Lightweight, performance-oriented hull design
- Lower-profile superstructure for improved efficiency
- Larger sail plan with extended bowsprit and gennaker
- Enlarged flybridge with lightweight hardtop
- 12 kVA generator
- Frigomar inverter air conditioning
- 5 kW inverter (standard on non-hybrid models)
- Lightning protection system
- CE Certification
- Multiple interior layouts, including owner and charter versions

Optional Equipment

- Hybrid propulsion system
- Kevlar-reinforced hull construction
- Carbon-rereinforced structural frame and bulkheads
- Hydraulic Tenderlift swim platform
- Fixed aft-deck extension for tender storage or entertaining
- Solar array up to 3.1 kW
- Expanded lithium battery bank (20–30 kWh)
- Custom interior layouts and owner-specific configurations

Available Engine Options	Engine Configuration	Approximate Maximum Speed*
Twin Yanmar 110 HP Sail Drives	11 knots	Twin Yanmar 150 HP Sail Drives
Twin Yanmar 150 HP Sail Drives	14 knots	Twin Yanmar 250 HP Shaft Drives
Twin Yanmar 250 HP Shaft Drives	18 knots	Twin Yanmar 400 HP Shaft Drives
Twin Yanmar 400 HP Shaft Drives	23 knots	

*Performance figures are approximate and may vary depending on loading, sea conditions, and selected equipment.

Whether your goal is bluewater cruising, luxury private ownership, or high-end charter operations, the **Mazarin 55** offers an outstanding combination of performance, innovation, comfort, and customization.

Construction is currently underway. Enquiries are welcome to discuss available layouts, equipment packages, construction progress, and delivery schedules.
