Description

The **Mazarin 55 EVO** with Parallel Hybrid propulsion represents the next evolution in luxury power catamaran design — combining high-performance diesel power with advanced electric technology to deliver a quieter, more efficient, and environmentally conscious cruising experience.

Engineered for discerning owners seeking both luxury and innovation, the Parallel Hybrid system seamlessly integrates twin diesel engines with electric propulsion, allowing the yacht to operate in multiple modes depending on cruising conditions and owner preference. The result is enhanced fuel efficiency, reduced emissions, lower noise levels, and exceptional operational flexibility without compromising performance.

At displacement speeds, the Mazarin 55 EVO offers remarkable fuel economy and extended cruising range, while still delivering powerful acceleration and impressive cruising performance when required. The hybrid system also enables near-silent electric operation for marina maneuvering, anchoring, or relaxed coastal cruising — creating a more peaceful connection with the sea.

Built with advanced hull engineering and contemporary European styling, the Mazarin 55 EVO combines exceptional seaworthiness with expansive onboard living spaces. Luxurious interiors, panoramic glazing, and seamless indoor-outdoor integration create an atmosphere of modern elegance and comfort throughout the vessel.

Highly customizable to suit each owner's lifestyle, the Mazarin 55 EVO is available in multiple layout configurations, including private owner versions and charter-focused arrangements. Spacious guest accommodations, refined entertainment areas, and intelligent onboard systems make the yacht equally suited for long-range exploration, family cruising, or luxury charter operations.

With cutting-edge hybrid technology developed in partnership with **E-Motion Italy**, the Mazarin 55 EVO represents a forward-thinking approach to luxury yachting — where innovation, sustainability, comfort, and performance exist in perfect harmony.

Elegant, efficient, and technologically advanced, the Mazarin 55 EVO Hybrid sets a new benchmark for the future of luxury power catamarans.

NOTES:

Price is on the base model powered with twin Yanmar 440 hp and E-Motion hybrid System.
