Description

The Pirelli 1100 Cabin from Tecnorib is both a practical and robust boat offering a great mix of performance, comfort and affordability.

Just one look at the specifications is enough to realize the 1100 Cabin is not simple rigid-hulled boat, but a full-blooded day cruiser with central console and one small cabin. Ten meters long, powered by inboard engines, the Pirelli 1100 Cabin looks a lot like a classic RIB, but larger.

Proud of its RIB roots, the Pirelli 1100 Cabin is fast and safe. Its relatively narrow hull guarantees speed, and its deck is wide and deep enough for relaxed and safe sailing.

The unit we tested was painted a serious shade of gray, lightened up by gray cushions. The aft platform is one meter long and extends all the way to the end of the hull, protecting the propeller and allowing easy access to the water.

Information & Features

Mercruiser (Engine 1)

Engine Type:	Inboard	Power:	350 hp
