Description

27 meters entirely dedicated to a warm welcome. The Velvet 90' increases the pleasure of livability by adding new spaces, inside and out. A wider cockpit and saloon. Maximum light which flows through the double side windowing, the ample windshield and through the crystal door. The nighttime area reserves the pleasure of four comfortable cabins, all with bathrooms and separate shower cubicles. The master suite, at the center of the craft, and the VIP suite, at the end of the bow, both have double beds while the guest cabins at the stern have twin beds. With its increased performance, the Velvet 90' guarantees a cruising speed of 35 knots with first class engines. In typical Tecnomar style, the interiors can be fully customized, both in the furnishings and the layout of the environments.
