Description

Innovative 13m Electric Catamaran –

This cutting-edge 13-meter vessel represents the next generation of sustainable marine mobility.

Built entirely from advanced carbon fiber, its catamaran hull design ensures exceptional stability, efficiency, and smooth performance even at high speeds. This is a rare opportunity to acquire a nearly new, high-performance electric vessel with immediate availability.

Key Features

- **Length:** 13 meters
- **Hull Type:** Carbon fiber catamaran
- **Top Speed:** Up to 40 knots
- **Range:** ~100 nautical miles at cruising speed
- **Usage:** Approx. 10 engine hours

Advanced Electric Propulsion

Powered by a state-of-the-art 100% electric system developed by Hispano Suiza and QEV Technologies, this vessel delivers:

- Silent navigation
- Zero emissions
- High efficiency and reliability
- Premium performance engineering

Hybrid-Ready Flexibility

The vessel is pre-configured for hybrid conversion, allowing the installation of a diesel generator (+€35,000), providing extended range and operational versatility.

Certification & Condition

- Sea trials and stability tests completed with RINA
- Full documentation in order
- Final CE certification included
- Turnkey condition, ready for immediate delivery

Ideal Use

Perfect for:

- Luxury day charters
- Tender services for superyachts
- Eco-conscious maritime operations
- High-end coastal transfers
