Description

MAZARIN 75' Hybrid Power Catamaran Powered by E-Motion Italy Parallel Hybrid Systems

The **Mazarin 75 Hybrid Power Catamaran** combines exceptional speed, efficiency, and long-range capability in a revolutionary multihull platform. Designed with advanced hydrodynamics and state-of-the-art hybrid propulsion, it delivers outstanding performance while significantly reducing fuel consumption and emissions.

Featuring **E-Motion Italy's Parallel Hybrid System**, the yacht offers unparalleled flexibility with multiple propulsion modes:

- Twin diesel propulsion
- Single diesel operation, with the second engine functioning as a generator
- Twin electric propulsion
- Single electric propulsion for silent, zero-emission cruising

This versatile configuration allows owners to optimize performance, economy, or quiet operation depending on cruising conditions.

The yacht's **high bridgedeck clearance** and exceptionally **slender hulls** provide a remarkably smooth ride in challenging sea conditions while minimizing wave impact. Its **ultra-low wake** also makes it ideal for high-speed cruising in environmentally sensitive or enclosed waterways.

Performance

- Cruising and top speeds up to **21 knots** with twin **550 HP** engines
- Optional propulsion package delivering speeds up to **27 knots** with twin **715 HP** engines

Sustainable Energy

The yacht is equipped with an impressive **13 kW Renogy ShadowFlux solar array**, providing substantial renewable energy generation to support onboard systems and extend electric cruising capability.

Accommodation

The iYacht 75 is available in a variety of interior layouts, including:

- Luxurious full-beam Owner's Version
- Up to **six guest cabins**
- Optional separate crew accommodation

Combining performance, comfort, innovation, and environmental responsibility, the Mazarin 75 Hybrid Power Catamaran sets a new benchmark for modern luxury cruising.
